

# MOBILIZING FINANCE AND INVESTMENT

USAID Clean Power Asia aims to increase grid-connected clean energy across the Lower Mekong by planning for high renewable energy scenarios, fostering supportive policy frameworks, and mobilizing public and private investment.

A broad range of models, strategic adoption of cost-efficient technologies, and comprehensive policies and regulations are key to structuring bankable projects that appeal to commercial developers.

	Improve project bankability	Increase access to finance
<b>Development</b>	<ul style="list-style-type: none"> <li>Streamlined permitting process</li> <li>Standardized contracts/documentation</li> <li>Project development platform</li> </ul>	<ul style="list-style-type: none"> <li>Development capital</li> <li>Public equity</li> <li>Private equity</li> </ul>
<b>Financing</b>	<ul style="list-style-type: none"> <li>Investment guidelines</li> <li>Financial models/evaluation tools</li> <li>Project aggregation/securitization</li> </ul>	<ul style="list-style-type: none"> <li>Project financing</li> <li>Structured finance</li> <li>Risk guarantee mechanisms</li> </ul>
<b>Construction &amp; Operation</b> ↑ kWh ⚡ ↓ TCO <sub>2</sub>	<ul style="list-style-type: none"> <li>Standard engineering, procurement, and construction contracts</li> <li>Insurance products</li> </ul>	<ul style="list-style-type: none"> <li>Re-financing</li> <li>Yieldco, green bonds, crowdfunding</li> </ul>

Business interruption risks and price volatility are leading governments and businesses to be more strategic in energy procurement. Renewables offer control of energy costs and margins, while tools and business models under development will improve the risk/reward profile of new projects.
